

TR666

Outstanding Performance with Great Comfort

Saturated shoulder design, good wear performance, improved service mileage.

N-shape side design providing excellent grip and safety.

Improved heat elimination and reduced fuel consumption.

Suitable for all wheel positions of buses on highways.

Tire Size	Ply	Tread Depth [32NDS]	Load Index (Use Slash)	Max Load (Single /Dual)	Overall Diameter [In]	Rim Size	Tube	Category
